

**POLYKEN**<sup>®</sup>  
Medical Adhesive Tapes

# SURGICAL DRAPE PSA TAPES

Adhesives for today's demands.  
And tomorrow's challenges.

INNOVATION FOR THE WORLD  
SOLUTIONS FOR YOU

# POLYKEN<sup>®</sup> SURGICAL DRAPE PSA TAPES

Providing you advanced solutions that perform under pressure.

Creating better outcomes for patients. That's what innovation in your world is all about, and we're right there with you. Polyken is both a trusted name for tapes already used in several advanced healthcare settings today, and a partner who designs and

produces solutions for forward-thinking medical manufacturers. Look to our lineup for the ability to withstand the rigors of sterilization and surgery, handle radical changes in temperature, and endure mechanical stress under highly critical moments.

## 1731D Double-Coated Adhesive Tape

High-performing acrylic adhesives, supported by PET or tissue carriers.

Ideal for securing:

- Drape to patient
- Drape to table
- Drape to material (seam or pouch)

## 2203R Flexible Film Adhesive Tape

Premium, single-coated adhesives featuring PE and PET films. Designed to maximize performance and patient comfort.

Ideal for:

- High moisture exposure
- Wound care
- Incise drapes

We believe every component matters, right down to the adhesives. As a Berry Global brand, we've got the capabilities and expertise to elevate your products through our portfolio of long-trusted, quality-assured medical tapes.
